Why are representatives important ?

- **40%** of lab staff = non-permanents
- **Communication** between the heads of the lab and the non-permanents
- Care of **integration** and **well-being**
- Organize **specific events** for PhD

What we want to do ?

- Develop better **communication** with the administration
- Create a **mentoring** between french and non-french speaking students
- **Add a budget** line for non-permanent people (PhD day, Cookies club, ...)
- Organise **non-informal events** (picnic, bars, weekends)

Facebook group: LPhDS

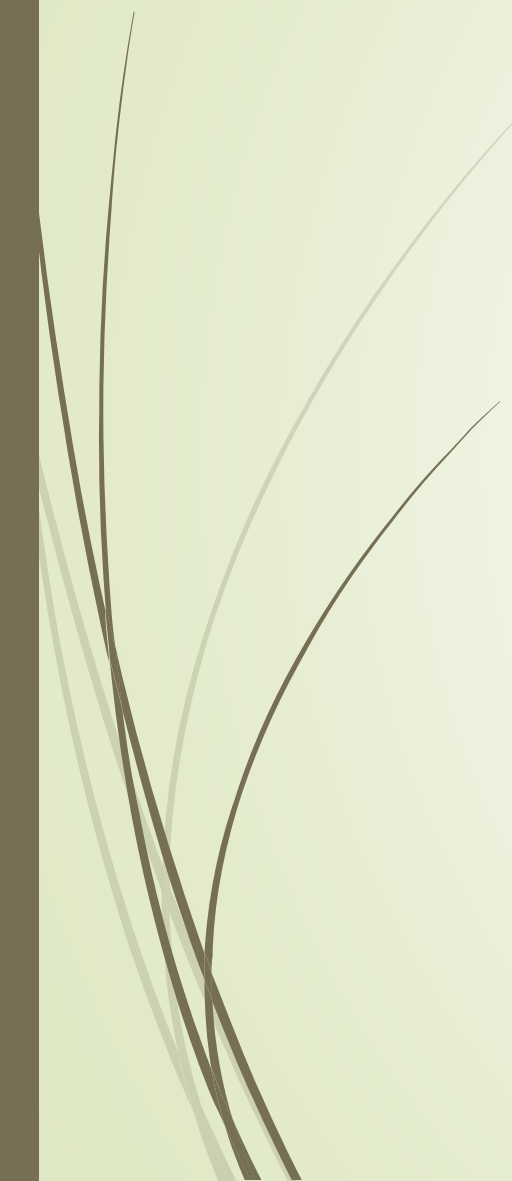

The screenshot shows the Facebook group page for 'LPhDS'. The group is a 'Groupe fermé' (closed group). The left sidebar contains navigation options: 'À propos', 'Discussion', 'Discussions de groupe', 'Membres', 'Évènements', and a search bar. Below these are 'Raccourcis' (shortcuts) for 'Asso Photon' and 'Magistère de Physique...'. The main content area features a large blue-toned illustration of a diverse group of people, which is circled in red. Below the illustration are buttons for 'Membre', 'Notifications', 'Partager', and 'Plus'. The post area includes options for 'Message', 'Ajouter photo/vi...', 'Vidéo en direct', and 'Plus'. A post by 'Noémie Bonnet' is visible, stating 'Noémie Bonnet a créé le groupe LPhDS. À l'instant'. The right sidebar contains sections for 'INVITER DES MEMBRES', 'MEMBRES' (2 membres), 'CRÉER DES GROUPES', and 'Suggestions de groupes'.

Photo of all non-permanents ?

- ✓ Private for LPS students
- ✓ Everybody can share information, events...
- ✓ Free to come, free to quit

Tutors and mentors

- ▶ Not an obligation in some doctoral schools
 - ▶ Impose it in the lab -> it will not depend on the doctoral school you are registered
 - ▶ See the list for tutors
