

# **Cookies club**

*prospective future*

# TIME, DATE AND LENGTH

- frequency and length → no statistical deviance
- for the time → poll
- for the day → depends on the speakers availability

Please come as a speaker ! 🙏 ---> [cookiesclublps.github.io](https://github.com/cookiesclublps)

# STANDARDS

**huge** majority of answers says it is too hard

we recommend that you:

- better build your introduction (formulate a problem)
- carefully select the developed ideas/results/figures
- encourage questions
- encourage people to say if they are lost

# **BREAK THE ROUTINE (I)**

many people are interested in trying out **new things**

- you are not necessarily expected to discuss your subject
- is out of soft/condensed matter OK?
- feel free to suggest any contacts you may have
- have some PhDs who left for the private sector come?
- would you like special/better food?

# **BREAK THE ROUTINE (II)**

we suggest you to:

- talk about your scientific family
- present one IG Nobel
- enlight the history of an experimental technique
- give us the latest news in your field
- share your vision of teaching

# **SPREAD OUT TO OTHER LABS**

- proximity
- FAST and LIMSI said no
- we will try with GEOPS & CSNSM
- do you have other labs/contacts in mind?

# TURNOVER

- Chaima & Eloi: more and more busy (thesis manuscript)
- Manon & Quentin: end of 2nd year
- Some of you interested to join?

(preferably 1st year students)

Please come as a speaker ! 🙏 --->[cookiesclublps.github.io](https://cookiesclublps.github.io)

# TIME FOR QUESTIONS/DISCUSSION
